

Andrea Schinsing Awarded 2025 Breeder Advancement Scholarship

The American Hanoverian Society Foundation is proud to announce that Andrea Schinsing of Hawk Meadow Farm in New York has been selected as the recipient of the 2025 Breeder Advancement Scholarship.

Andrea bred her first Warmblood in 1996 and has been a member of the American Hanoverian Society since 2017. She has remained deeply committed to producing horses with the soundness, temperament, and athletic ability needed to succeed in modern sport. Her breeding program at Hawk Meadow Farm focuses on careful selection and a long-term vision for quality sport horses who can excel in both amateur and professional settings.

With the support of the Breeder Advancement Scholarship, Andrea will attend the 2025 USDF Sport Horse Seminar at Hilltop Farm. This educational experience will allow her to further refine her understanding of conformation, movement, and breeding selection—building on her already solid foundation and helping her make even more informed breeding decisions in the years to come.

The AHS Foundation congratulates Andrea on this well-deserved recognition and looks forward to seeing the impact of her continued contributions to the Hanoverian and Rhineland breeding community.

The American Hanoverian Society Foundation is a 501(c)(3) nonprofit organization dedicated to supporting sport horse education and opportunity throughout North America. Its mission includes funding scholarships, hosting educational events, and providing resources for breeders, riders, and equestrian professionals. For more information, visit www.ahs-foundation.org.
